ONE STEP™

COMPLETE SEEDING MIXTURE

**YOU'LL SOON SEE THE
ONE STEP COMPLETE™
SEEDING MIXTURE DIFFERENCE!**

Pennington One Step Complete® Seeding Mixture system makes it easy to grow beautiful, thick, water-saving grass. Everything you need is pre-mixed and ready to use. Simply apply, water and watch it grow. Our super absorbent seeding mixture holds and maintains moisture around the seed while providing the essential nutrients needed to grow lush, thick grass.

And, because Pennington One Step Complete® Seeding Mixture system contains our Pennington® Smart Seed® grass seed, you'll continue saving water, once the grass is established: **UP TO 30% LESS WATER** versus ordinary grass seed.

PLANTING INSTRUCTIONS

FOLLOW THESE GUIDELINES FOR LUSH, THICK GRASS

PREPARE: Remove debris, then rake the soil to loosen and smooth the top layer.

APPLY: Spread seeding mix approx. 1 cup/sq. ft. everywhere thick, beautiful grass is desired.

WATER: This is the most important step! Keep the soil moist by watering daily (twice a day if you have to) until grass sprouts and reaches about 3" tall. The mulch turns a lighter color when it's dry indicating that it's time to water again.

PLANTING SPECIFICATIONS

FOR REPAIRING BARE SPOTS

OPTIMAL RESULTS
RATE: 1 cup/1 sq ft

EXTENDED COVERAGE (up to 25% damage)
RATE: 1 lb/15 sq ft

Coverage: Up to 75 sq ft
Traffic Tolerance: Good
Seedling Emergence: 7-14 days
Drought Tolerance: Very Good
Light Required: Full Sun to Medium Shade
Recommended Mowing Height: 3"

PENNINGTON'S PENKOTED® SEED TECHNOLOGY ENSURES BETTER PLANT GROWTH

Inside Cover

WARNING: Treated Seed: This seed has been treated with Mefenoxam, commonly known as Apron XL® and Cytokinin (as Kinetin), gibberellic acid and indole-3-butyric acid, commonly known as Stimulate™ Yield Enhancer, at the rate recommended by the manufacturer. Do not use for feed, food or oil purposes.

Store away from food and feedstuffs. Do not allow children, pets or livestock to have access to treated seeds.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Causes substantial but temporary eye irritation. Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes or clothing.

Avoid breathing dust from treated seed. Work upwind while loading planters. Workers may choose to wear a dust mask. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

For Emergencies or questions related to mefenoxam applied to this seed, please call 1-800-888-8372.

NOTICE: The color green as applied to grass seed is a registered trademark that is registered in the U.S. Patent Trademark Office by Pennington Seed, Inc. Pennington uses the safest colorant available.

Apply only to actively growing turf. Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden, and sweep any product that lands on the driveway, sidewalk, or street, back onto your lawn/garden. Check with your local cooperative extension agency to obtain specific information on local turf best management practices. Check with your county or city government to determine if there are local regulations for fertilizer use.

NOTICE: Arbitration/conciliation/mediation required by several states. Under the seed laws of several states, arbitration, mediation, or conciliation is required as a prerequisite to maintaining a legal action based upon the failure of seed, to which this notice is attached, to produce as represented. The consumer shall file a complaint (sworn for FL, IN, MS, MT, SC, TX, WA; signed only GA, CA, ID, ND, SD) along with the required filing fee (where applicable) with the commissioner/director/secretary of agriculture, seed commissioner (IN), or chief agricultural officer within such a time as to permit inspection of the crops, plants, or trees by the designated agency and the seedsman from whom the seed was purchased. A copy of the complaint shall be sent to the seller by certified or registered mail or as otherwise provided by state statute.

Important: Applying weed control products to grass prior to seeding can affect the seeds' ability to grow. Be sure to read and follow all manufacturer's recommendations and application instructions prior to applying any weed control products and prior to seeding. Additionally, do not apply any weed control products to newly seeded areas until the grass is established and has been mowed at least 3 or 4 times. Once newly seeded areas are established, you can begin a regular feeding schedule.

¡No tardará en notar la diferencia cuando use la mezcla de semillas One Step Complete™!

La mezcla de semillas Pennington One Step Complete facilita el cultivo de un césped bello, denso y que ahorra agua. Todos los ingredientes necesarios están premezclados y listos para usar. Simplemente, aplíquela, riegue y vea cómo crece. Nuestra mezcla de semillas superabsorbente retiene y mantiene la humedad alrededor de la semilla mientras brinda los nutrientes esenciales necesarios para permitir el crecimiento de un césped denso y frondoso.

Y como la mezcla de semillas Pennington 1 Step Complete contiene nuestras semillas Pennington Smart Seed®, usted podrá continuar ahorrando agua una vez que la hierba se asiente, **HASTA UN 30% MENOS DE AGUA** en comparación con las semillas de hierba comunes.

Instrucciones para la siembra

Siga estas guías para obtener un césped denso y frondoso

PREPARE: Remueva todo el desecho, después rastille para aflojar la tierra y suavizar la capa de arriba.

APLIQUE: Esparza la mezcla de semillas aproximadamente 1 taza por pie cuadrado en los lugares en los que desee un césped denso y bello.

RIEGUE: ¡Este es el paso más importante! Mantenga el suelo húmedo regándolo todos los días (dos veces al día si es necesario) hasta que la hierba brote y alcance unas 3 pulgadas de alto. El mantillo se torna más claro al secarse, lo que indica que es tiempo de regar nuevamente.

Especificaciones De Siembra

Restauración de áreas sin hierba

Resultados óptimos

Tasa: 1 taza/1 pie cúbico

Cobertura extendida (daños de hasta un 25%)

Tasa: 1 lb/15 pies cúbico

Cobertura: Hasta 75 pies cuadrados

Tolerancia al Tráfico: Buena

Surgimiento de Planta: 7-14 días

Tolerancia a al Sequía: Muy buena

Luz Requerida: Pleno sol a sombra parcial

Altura de Corte Recomendada: 3"
