# TRIAZICIDE<sup>®</sup> INSECT KILLER

**FOR LAWNS & LANDSCAPES**

CONCENTRATE

*Insecticida concentrado para césped y jardín*

**Kills 260+ Listed  
Insects By Contact**

Up to **3 Months\*** Control  
of pests

**Kills Above & Below Ground**

Active Ingredient: Gamma-Cyhalothrin ..... 0.00%  
Other Ingredients ..... 99.92%

\*For terms of guarantee, see back panel.

KEEP OUT OF REACH OF CHILDREN

**CAUTION** See back booklet for additional precautionary statements.

\*House crickets, carpenter ants, harvester ants, ladybeetles, earwigs

MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS

**PRECAUCIÓN** Consulte el folleto en la parte posterior para conocer las declaraciones preventivas adicionales.

Net 32 fl oz (1 qt / 946 mL) 17-14599

**ATTACH  
TO HOSE**

## ÁRBOLES FRUTALES Y DE NUECES

Aplique cuando aparezcan los insectos o cuando ocurra daño. Rocíe para mojar todas las superficies de las plantas infestadas. Aplique como un rocío foliar completo. Moje las hojas y las ramas hasta que goteen. Trate de rociar la superficie inferior de las hojas y penetrar el follaje tupido. Con un cuarto de galón se tratan 6,144 pies cuadrados de árboles frutales y de nueces.

En árboles frutales no aplique más de nueve veces por año, y aplique sólo cinco veces después del florecimiento. En árboles de nueces no aplique más de seis veces por año, y aplique sólo cinco veces después del florecimiento.

Para usar en manzano, manzano silvestre, níspero, mayhaw, peral asiático, peral y membrillo, para controlar: saltarilla<sup>§</sup>, polilla del manzano, palomilla de las yemas del manzano, polilla oriental del duraznero, grapholita prunivora, gusano verde del fruto, especies de lagartas (gusanos tenderos), especies de minador punteado, mosca de la manzana (adulta), minador punteado, picudo de la ciruela, escarabajo japonés, chinche, chinche hedionda, cigarras periódicas, áfido del manzano, áfido rosado del manzano, psílido del peral, cochinita de San José (sólo en frutos).

Para usar en chabacano, cerezo dulce, cerezo agrio, nectarina, durazno, ciruelo (Chickasaw, Damson, Japonés), ciruela y ciruelas pasa para controlar: enrolladores de hojas<sup>¶</sup>, anarsia, polilla oriental del duraznero, especies de barrenadores del duraznero, gusano verde del fruto, especies de lagartas (gusanos tenderos), American plum borer, especies de la mosca de la cereza (adulta), picudo de la ciruela, frailecillo, escarabajo japonés, chinche, chinche hedionda, saltarilla<sup>§</sup>, cigarras periódicas, áfido negro del cerezo.

Para usar en almendra, nuez de haya, nuez de Brasil, nogal blanco, nuez de la India, castaña, chinquapin, avellana (hazelnut), nogal americano, macadamia, nogal (negro e inglés) y nuez pecana, para controlar: enrolladores de hojas<sup>¶</sup>, gusano de la naranja, polilla del manzano, filbertworm, anarsia, especies de mosca de la nuez (adulta), hormigas<sup>††</sup>, chinche, chinche hedionda, chinche, insecto occidental de la semilla de la conífera, áfido del nogal, hickory shuckworm, especies de barrenador de la nuez, pecan weevil, especies de pulgones del nogal, pecan spittlebug, especies de filoxera del pacanero.

<sup>††</sup> Argentinas, del sur, de campo, Allegheny Mound, carpinteras de Florida, carpinteras rojas, carpinteras negras, de los campos de maíz, de la miel, del pavimento, molestas, olorosas, pirámide, negras del césped, de patas blancas, locas, pequeñas y negras, fantasmas, ladronas, acrobáticas, de la citronella, de cabeza grande, del césped, lasius  
<sup>¶</sup> Montaña, saltarilla del rosal, southern garden, cigarra multicolor, larva de la cigarra multicolor, saltahoja de parra virgen, saltahoja del aster, six-spotted, saltahoja del olmo, saltahoja con bandas blancas del olmo, sharp-nosed, blunt-nosed, saltarilla de bandas rojas, chicharrita del arroz, saltahoja de la vid del este, saltahoja de la papa, saltahoja de la vid del oeste

<sup>¶</sup> De bandas oblicuas, de bandas rojas, de hojas variegadas

### CANTIDAD DE DÍAS QUE SE DEBEN ESPERAR ENTRE LA ÚLTIMA APLICACIÓN Y LA COSECHA

## ALMACENAMIENTO Y ELIMINACIÓN

**Almacenamiento del pesticida:** Guarde en un lugar fresco y seco, lejos del calor o del fuego.

**Eliminación del pesticida:** Si está vacío: Envase no rellenable. No vuelva a usar ni rellenar este envase. Ofrézcalo para reciclar, si existe esa opción. Si está parcialmente vacío: Llame a su servicio de eliminación de desechos más cercano para obtener instrucciones de eliminación. Nunca tire el producto sin usar por ningún drenaje interno ni externo.

## PRODUCT FACTS

WHERE TO USE:

Outdoors

WHAT IT DOES:

Kills grubs, ants\*\*, fleas, deer ticks, Japanese beetles, European crane flies & other listed insects \*\*See inside product booklet for complete pest list.

Covers up to  
5,120 sq ft  
of Lawn

3

Up to 3 Months\* Control of Pests  
\*House crickets, carpenter ants, harvester ants, ladybeetles, earwigs

Protects Lawns, Vegetables, Fruit & Nut Trees, Roses, Flowers, Trees & Shrubs

Kills Above & Below Ground

Non-Staining\*

\*Guaranteed Results or Your Money Back

If you are not satisfied with this product for any reason, send your written request for a refund to the address below, together with the original dated store receipt showing the price you paid. Please allow 6-8 weeks for processing.

**QUESTIONS & COMMENTS:** Call 1-800-917-5438 or visit our website at [www.spectracide.com](http://www.spectracide.com)

†NOTE: This product is non-staining to most home siding depending on age and cleanliness. However, before using in areas where the spray may contact home siding (vinyl siding in particular), test in an inconspicuous area and recheck in a few hours. Do not use if any staining is observed.

## STOP. READ ENTIRE LABEL BEFORE USE.

# DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

 Do not allow children or pets into the treated area until dry.

- Do not water the treated area to the point of runoff.
  - Do not make applications during rain.
  - All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:
    - Treatment to soil or vegetation around structures
    - Applications to lawns, turf and other vegetation
    - Applications to building foundations, up to a maximum height of 3 ft. Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors and eaves) are limited to spot and crack-and-crevice applications only.
  - Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.
- In New York State, this product may not be applied to lawns within 100 ft of a coastal marsh, or stream that drains directly into a coastal marsh.

## HOW TO APPLY

Determine the size of the spraying job. For lawns, measure the area to be sprayed. For trees, shrubs and flowers, apply as a thorough cover spray. Begin treating when insects first appear. Applications should be repeated only as directed to maintain control. Apply as directed. Remember, thorough coverage is important. Be sure to follow the important use limitations for the specific vegetable you are treating, including the amount of spray that can be applied, the interval between treatments and the days to wait before harvest.

### USING THE READY SPRAY NOZZLE

- Shake container well before using.
  - Connect a garden hose to the Ready Spray nozzle. Make sure the dial on the nozzle is in the "OFF" position with the safety tab in the valve notch.
  - Turn on water at faucet. Extend hose to the farthest area to be treated and work back toward the faucet so you don't come in contact with the treated area.
  - To BEGIN spraying, point nozzle toward treatment site and a.) bend the safety tab back (located at right of dial) with your thumb and b.) hold while turning dial clockwise until it stops. Water will automatically mix with the product.
  - Spray until wet to control insects. Walk at a steady pace while spraying using an even sweeping motion, slightly overlapping treated areas.
  - To STOP spraying, QUICKLY turn the dial counterclockwise until it stops and the safety tab engages into the notch on the valve. Turn water off at faucet. To relieve pressure before removing nozzle from hose, bend the safety tab back and turn dial "ON" until water stops spraying.
  - To STORE unused product, make sure the dial is in the "OFF" position with safety tab in the valve notch. Place in cool area away from heat, sunlight or open flame.
- NOTE: This product is non-staining to most home siding depending on age and cleanliness. However, before using in areas where the spray may contact home siding (vinyl siding in particular), test in an inconspicuous area and recheck in a few hours. Do not use if any staining is observed.

## LAWNS

**THATCH-INFESTING INSECTS/UNDERGROUND INSECTS** including blue grass billbug (adult), black turfgrass *Ataenius* (adult), chiggers, chinch bugs, white grubs (Japanese beetle, European chafer, southern chafer), dung beetle and hyperodes weevils (adult) and mole crickets (nymphs and young adults). Use one quart of this product to treat 2,560 sq ft of lawn. For subsurface insect control (mole crickets, grubs), water treated area with additional ¼ to ½ inch of water for optimum results. Do not apply more than seven times per year per location.

**SURFACE INSECTS** including ants<sup>†</sup>, armyworms, cockroaches, crickets<sup>§</sup>, cutworms<sup>¶</sup>, earwigs, fleas, ladybeetles<sup>\*\*\*\*</sup>, lawn moths (sod webworms),

millipedes, mosquitoes, moths<sup>∞</sup>, Palmetto bugs, sowbugs, mites<sup>^</sup>, spittlebugs, lone star ticks, brown dog ticks, American dog ticks, deer ticks (which may transmit Lyme Disease) and waterbugs. Use one quart of this product to treat 5,120 sq ft of lawn. Thoroughly wet down grass a few hours before applying. Delay additional watering or mowing for 24 hours after application for optimum control of surface insects. Do not apply more than 14 times per year per location.

**WHEN TO TREAT:** Treat the following pests during the months indicated or when first noticed.

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
				Billbugs			Grubs				
				Dung beetle grubs							
				Hyperodes weevils							
Treat ants <sup>†</sup> and other insects when they first appear or you notice lawn damage.											

<sup>†</sup> Argentine, southern, field, Allegheny mound, Florida carpenter, red carpenter, black carpenter, cornfield, honey, pavement, nuisance, odorless, pyramid, black turf, white-footed, crazy, little black, ghost, thief, acrobat, citronella, big-headed, lawn, lasius

<sup>‡</sup> House, common short-tailed, Indies short-tailed, Arizona, tropical, variable field, fall field, southeastern field, Texas field, spring field, northern wood, western striped, eastern striped, sand field, vocal field, southern wood

<sup>§</sup> Black, bronzed, granulate, variegated, greasy, spotted, army, clover, green

<sup>\*\*\*\*</sup> Convergent, seven-spotted, two-spotted, thirteen-spotted, twice-stabbed, Asian

<sup>∞</sup> Artichoke plume, gypsy, zimmerman pine

<sup>^</sup> Banks grass, carmine, European, grain, Pacific, russet, spruce

## ORNAMENTAL TREES, SHRUBS AND FLOWERS

For use on ornamental trees, shrubs and flowers such as but not limited to: Ageratum, Arborvitae, Arizona Cypress, Aster, Azaleas, Begonia, Birch, Boxwood, Box Elder, Camellias, Carnations, Cherry (ornamental), Chrysanthemums, Coleus, Common Ninebark, Conifers, Douglas Fir, Elm, English Ivy, Euonymus, Exacum, Weeping Fig, Fir, Gladioli, Gold Bells, Hawthorn, Holly, Honeysuckle, Hypoestes, Ivy, Juniper, Lilac, Locust, Maple, Marigold, Mimosa, Mock Orange, Nannyberry, Oak, Orchid, Palm, Pansy, Pea Shrub, Petunia, Philodendron, Pine, Ornamental Plum, Poinsettia, Poplar, Tulip Poplar, Rhododendron, Roses, Snapdragon, Snowberry, Spruce, Taxus, Weeping Fig, Willow, Zinnia.

To control ants<sup>†</sup>; aphids<sup>\*\*\*</sup>; armyworms, azalea caterpillar, bagworms, black vine weevil (adult), box elder bugs, budworms, California oakworm, cankerworms, cockroaches, crickets<sup>§</sup>, cutworms<sup>¶</sup>, eastern tent caterpillar, elm leaf beetles, European sawfly, fall webworm, flea beetles, forest tent caterpillar, gypsy moth larvae, Japanese beetles (adults), June beetles (adults), lace bugs, ladybeetles<sup>\*\*\*\*</sup>, leaf-feeding caterpillars, leafhoppers<sup>§</sup>, leafminers<sup>+</sup> (adults), leafrollers<sup>§</sup>, leaf skeletonizers, midges, moths<sup>∞</sup>; oleander moth larvae, pillbug, pine sawfly, pine shoot beetles, pinetip moths, plant bugs, root weevil, sawfly, scale insects (crawlers), spiders, spittlebugs, striped beetles, striped oakworm, thrips, tip moth, tussock moth larvae, broadmites, brown softscale, California redscale (crawler), clover mites, mealybugs, pineneedle scale (crawler), spider mites and whiteflies.

<sup>†</sup> Argentine, southern, field, Allegheny mound, Florida carpenter, red carpenter, black carpenter, cornfield, honey, pavement, nuisance, odorless, pyramid, black turf, white-footed, crazy, little black, ghost, thief, acrobat, citronella, big-headed, lawn, lasius

<sup>\*\*\*</sup> Buckhorn, greenbug, pea, root, rose, walnut

<sup>‡</sup> House, common short-tailed, Indies short-tailed, Arizona, tropical, variable field, fall field, southeastern field, Texas field, spring field, northern wood, western striped, eastern striped, sand field, vocal field, southern wood

<sup>§</sup> Black, bronzed, granulate, variegated, greasy, spotted, army, clover, green

<sup>\*\*\*\*</sup> Convergent, seven-spotted, two-spotted, thirteen-spotted, twice-stabbed, Asian

<sup>§</sup> Mountain, rose, southern garden, variegated, variegated larvae, Virginia creeper, aster, six-spotted, elm, white-banded elm, sharp-nosed, blunt-nosed, red-banded, rice, eastern grape, potato, western grape

<sup>+</sup> Corn blotch, alder, boxwood, holly, oak, spruce needle, teniform, vegetable

# Oblique-banded, red-banded, variegated

∞ Artichoke plume, gypsy, zimmerman pine

Apply as a thorough foliar spray. Wet leaves and branches to the dripping point. Try to spray underside of leaves and penetrate dense foliage.

#### USE TIPS

- For best results, apply early before insect populations are high.
- For scale control, treat entire plant, including stem, trunk and twigs.
- For bagworm control, apply when bagworm larvae begin to hatch.
- For best results, apply to both sides of plant leaves and all plant surfaces where insects are found.

## VEGETABLES

Apply when insects appear or when damage occurs. Spray to wet all infested plant surfaces. Apply as a thorough foliar spray. Wet leaves and branches to the dripping point. Try to spray underside of leaves and penetrate dense foliage. One quart will treat 6,144 sq ft of vegetable plants.

**Do not apply more than five times per growing season to corn. For all other crops, do not apply more than nine times per growing season.**

For use on Broccoli, Brussels Sprouts, Cabbage, Cavalo Broccoli, Cauliflower, Chinese Broccoli, Chinese Cabbage, Chinese Mustard and Kohlrabi to control: alfalfa looper, cabbage looper, imported cabbageworm, southern cabbageworm, cutworm<sup>0</sup>, cabbage webworm, diamondback moth, armyworm, beet armyworm, fall armyworm, yellow-striped armyworm, corn earworm, flea beetle, Japanese beetle (adult), grasshopper, leafhopper<sup>§</sup>, plant bug, including lygus bug, stink bug, meadow spittlebug, aphid<sup>\*\*\*</sup>; whitely, thrips, spider mite.

For use on Corn (sweet and pop) to control: cutworm<sup>0</sup>, western bean cutworm, corn earworm, green cloverworm, meadow spittlebug, tobacco budworm, European corn borer, southwestern corn borer, stalk borer, hop vine borer, armyworm, beet armyworm, western corn rootworm beetle (adult), northern corn rootworm beetle (adult), southern corn rootworm beetle (adult), Mexican corn rootworm beetle (adult), bean leaf beetle, cereal leaf beetle, Japanese beetle (adult), sap beetle (adult), stink bug, grasshopper, corn leaf aphid, English grain aphid, chinch bug, green bug.

Sweet Corn only: southern armyworm, western bean cutworm, tarnished plant bug, aster leafhopper, aphid<sup>\*\*\*</sup>; spider mite, corn silkfly (adult).

For use on Lettuce (head and leaf) to control: alfalfa looper, cabbage looper, imported cabbageworm, cutworm<sup>0</sup>, saltmarsh caterpillar, green cloverworm, diamondback moth, armyworm, beet armyworm, fall armyworm, southern armyworm, corn earworm, tobacco budworm, European corn borer, flea beetle, Japanese beetle (adult), vegetable weevil (adult), grasshopper, leafhopper<sup>§</sup>, plant bug, stink bug, meadow spittlebug, aphid<sup>\*\*\*</sup>; whitely, spider mite.

For use on Onion (bulb) and Garlic to control: cutworm<sup>0</sup>, seedcorn maggot (adult), onion maggot (adult), leafminer+ (adult), armyworm, onion thrips, tobacco thrips, western flower thrips, flower thrips, aphid<sup>\*\*\*</sup>; plant bug, stink bug.

For use on Tomato, Tomatillo, Peppers (bell and nonbell), Eggplant, Ground Cherry and Pepino to control: cabbage looper, cutworm<sup>0</sup>, hornworm, tomato fruitworm, tobacco budworm, tomato pinworm, beet armyworm, southern armyworm, yellow-striped armyworm, fall armyworm, European corn borer, leafminer+, Colorado potato beetle, flea beetle, grasshopper, leafhopper<sup>§</sup>, aphid<sup>\*\*\*</sup>; whitely, meadow spittlebug, stink bug, plant bug, stalk borer, blister beetle, Japanese beetle (adult), vegetable weevil, cucumber beetle (adult).

For use on Asparagus Beans, Snap Beans, Wax Beans, Black-Eyed Peas, Garden Peas, Green Peas and Sugar Snap Peas to control: cutworm<sup>0</sup>, green cloverworm, imported cabbageworm, saltmarsh caterpillar, velvetleaf caterpillar, Mexican bean beetle, corn earworm, painted lady butterfly (larvae), European corn borer, looper spp., western bean cutworm, armyworm, yellow-striped armyworm, western yellow-striped armyworm, bean leafskeltonizer, webworm spp., leafier spp., alfalfa caterpillar, stalk borer, cucumber beetle (adult), corn rootworm beetle (adult), flea beetle (adult), blister beetle, bean leaf beetle, Japanese beetle (adult), leafhopper<sup>§</sup>, fleas hopper spp., three-cornered alfalfa hopper, meadow spittlebug, stink bug spp., plant bug spp., grasshopper, thrips spp., aphid<sup>\*\*\*</sup>.

\*\*\* Buckhorn, greenbug, pea, root, rose, walnut

§ Mountain, rose, southern garden, variegated, variegated larvae, Virginia creeper, aster, six-spotted, elm, white-banded elm, sharp-nosed, blunt-nosed, red-banded, rice, eastern grape, potato, western grape

<sup>0</sup> Black, bronzed, granulate, variegated, greasy, spotted, army, clover, green

+ Corn blotch, alder, boxwood, holly, oak, spruce needle, tentiform, vegetable

## STORAGE AND DISPOSAL

**Pesticide Storage:** Store in a cool dry area away from heat or open flame.

**Pesticide Disposal:** If empty: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

## PRECAUTIONARY STATEMENTS

**Hazards to Humans and Domestic Animals**

**CAUTION.** Harmful if swallowed. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

**FIRST AID • If Swallowed:** Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a Poison Control Center or doctor for treatment advice.

**Environmental Hazards**

This product is extremely toxic to fish. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid runoff to water bodies or drainage systems. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

**ALTO. LEA TODA LA ETIQUETA ANTES DE USAR.**

## MODO DE EMPLEO

Se considera una violación a la ley federal usar este producto de una manera que no sea la indicada en la etiqueta.

No permita que los niños ni las mascotas entren en la zona tratada hasta que se seque.

- No riegue la zona tratada hasta el punto de escurrimiento.
- No realice aplicaciones durante lluvias.
- Todas las aplicaciones en espacios exteriores deben limitarse a tratamientos localizados o para tratar grietas y rajaduras exclusivamente, salvo los siguientes usos permitidos:
  1. Tratamiento del suelo o vegetación alrededor de estructuras
  2. Aplicaciones a céspedes y otra vegetación
  3. Aplicaciones a cimientos de edificios, hasta una altura máxima de 3 pies. Aparte de las aplicaciones a cimientos de edificios, todas las aplicaciones en espacios exteriores a superficies impermeables como aceras, caminos de entrada de automóviles, patios, porches y superficies estructurales (como ventanas, puertas y aleros) se limitan a aplicaciones localizadas y para el tratamiento de grietas y rajaduras exclusivamente.
- Se prohíbe la aplicación directa a alcantarillas o drenajes, así como a cualquier zona similar a una cuneta en la que pueda producirse el drenaje a alcantarillas, drenajes pluviales, masas de agua o hábitats acuáticos. No permita que el producto entre en ningún drenaje durante o después de su aplicación.

En el Estado de Nueva York, no se podrá aplicar este producto en céspedes ubicados a una distancia de hasta 100 pies de un pantano costero o de un arroyo que desemboque directamente en un pantano costero.

## PRECAUTIONARY STATEMENTS

### Hazards to Humans and Domestic Animals

**CAUTION.** Harmful if swallowed. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

### FIRST AID

**If Swallowed:** Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a Poison Control Center or doctor for treatment advice.

### Environmental Hazards

This product is extremely toxic to fish. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid runoff to water bodies or drainage systems. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

**NOTICE:** To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.

**Questions & Comments?** Call 1-800-917-5438 or visit our website at [www.spectracide.com](http://www.spectracide.com)

## DECLARACIONES PREVENTIVAS

### Riesgos para los seres humanos y los animales domésticos

**PRECAUCION.** Nocivo si se ingiere. Lávese muy bien las manos con agua y jabón después de manipularlo y antes de comer, beber, masticar chicle, usar tabaco o usar el baño.

### PRIMEROS AUXILIOS

**Si se ingiere:** Llame inmediatamente a un centro de control de envenenamientos o a un médico para recibir instrucciones de tratamiento. Si la persona puede tragar, haga que beba poco a poco un vaso de agua. No induzca el vómito, a menos que así se lo indique un centro de control de envenenamientos o un médico. No administre nada por la boca a una persona que haya perdido el conocimiento.

Cuando llame a un centro de control de envenenamientos o a un médico para recibir instrucciones de tratamiento, tenga a la mano el envase o la etiqueta del producto.

### Riesgos para el medio ambiente

Este producto es extremadamente tóxico para los peces. Para proteger el medio ambiente, no permita que el pesticida entre o escurra por drenajes pluviales, zanjas de drenaje, cunetas ni aguas superficiales. Aplicar este producto cuando no haya viento y no se anticipe lluvia en las siguientes 24 horas ayudará a asegurar que ni el viento ni la lluvia arrastren o quiten el pesticida de la zona de tratamiento. Enjuagar el equipo de aplicación encima de la zona tratada ayudará a evitar el escurrimiento a masas de agua o sistemas de drenaje. El arrastre y el escurrimiento desde las zonas tratadas pueden resultar peligrosos para los organismos acuáticos de las zonas vecinas.

Este producto es sumamente tóxico para las abejas expuestas al tratamiento directo o a los residuos en los cultivos o las malezas en flor. No aplique este producto ni permita que pase a los cultivos o malezas en flor en caso que haya abejas volando por la zona de tratamiento.

**NOTA:** Hasta el grado que sea compatible con la legislación pertinente, el comprador asume toda la responsabilidad para seguridad y uso que no estén de acuerdo con las instrucciones.

**¿Preguntas o comentarios?** Llame al 1-800-917-5438.
